

Black Sand

White Sand

Taupe Sand

The textures and colours are accurate as much as photographic and printing allows. Always check the actual sample instore for a more accurate representation.

Wintons Teak

POWDER COATED **ALUMINIUM**

Powder coating is a process where polymer based powder is sprayed onto metal surfaces. Which is them heated in an oven to melt and immerse the polymer onto the surface of the metal made. Powder coating also allows for pigment and finishing effect to be added.
